

Accessories

DETAILS THAT ARE KEY

B
BALCO

WINDOW BOX

The fronts can be fitted with window boxes in various sizes and matching colours. The window boxes can be fitted internally or externally, and provide a uniform look.

SOLAR SHADING

It is simple to add an electric awning with or without wind/sun control.

Contact us about the choice of colours.

Awnings cannot be added at a later date.

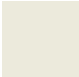

ROLLER BLINDS

All our systems have an integrated bracket and cover for roller blinds. As the roller blinds are an optional extra, you can order them from the start or add them at a later date.

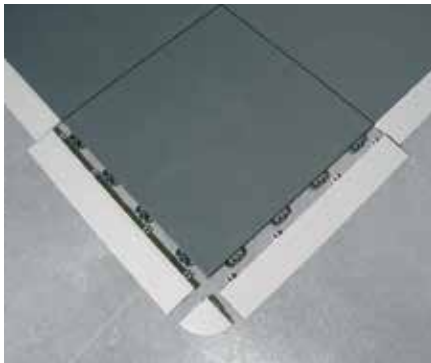

Colours available:

				
B8 Light beige	B9 Beige	B11 Grey-beige	B24 Light grey	B26 Dark grey

Colour variations may occur.

HARD FLOORING

A good value floor that is hard-wearing, maintenance free and drains. The design of the tiles allows the subfloor to breathe and hides dirt, so the floor always looks clean and smart. To clean, simply vacuum or mop.

Colours available:

Avocado green Graphite grey Pearl grey Marble grey Sienna

SOFT FLOORING

Single-colour needle felt flooring that makes the balcony feel cosy. Soft to walk on and easy to clean with a vacuum cleaner.

Colours available:

0900 Anthracite **0910** Stone grey **0630** Green

0313 Dark brown **0200** Beige **0713** Red

Colour variations may occur.

THE DETAILS ARE KEY

Our glazed balconies help give a façade a liberating consistency. To retain this impression once the

balconies are in place, we recommend that you also consider the small details, many of which provide

additional comfort for those 'moving out' into their new room.
